

THE GAZETTE.

MONDAY, JULY 9.

REPUBLICAN TICKET.

FOR PRESIDENT.
BENJAMIN HARRISON,
OF INDIANA.
FOR VICE PRESIDENT.
LEVI F. MORTON,
OF NEW YORK.

DEMOCRATIC PRIZE OF HARRISON.

That well known and highly circulated democratic paper, the Philadelphia Times, says that the democratic party is trying to get in its work in this campaign, says: "One of the best things that could be done by the party of all parties would be to set down heavily on the campaign line at the start, no matter whether it comes or under what flag it assumes to serve."

The readers of the Gazette will remember that the Philadelphia Times is a staunch Democrat, that it gives Cleveland its fullest support, and that it seeks to make no compromise whatever with the republican party. Therefore its denouncing of democratic liars is all the more significant. On one point the Times strikes from the shoulder in this vigorous style:

"The first invention of the campaign line is that General Harrison had voted in the senate to admit Chinese labor into the country without hindrance to compete with our domestic labor."

"General Harrison did nothing of the kind." He voted against a bill restricting Chinese immigration for a period of years because he regarded it as in conflict with the treaty rights of China. President Arthur vetoed the bill for the same reason, and Harrison vetoed against passing it over the veto. He simply voted against a bill which would have given Chinese labor the same national faith as pledged by solemn treaty. He is known to entertain very liberal views on the subject of Chinese immigration, but there is nothing in his conduct or record on the subject that is not creditable to his fidelity as a senator."

On another point in favor of General Harrison, the Times is equally as vigorous and fair. Speaking of the democratic lie which implicated General Harrison in the strike of 1877, the same democratic authority says:

"The next invention of the campaign line is that General Harrison opposed the labor strike of 1877, and that he said: 'A dollar a day is enough for any working-man.' General Harrison is not an idiot and he does not get drunk, and of course he never said any such thing or what he said could be construed into the expression of such a conviction. Of course he opposed the violence of the strike of 1877, and turned out as captain of a military company to preserve the peace and to protect property, but any man who would have done as much would be utterly unfitted for the presidency."

When a democratic newspaper, metropolitan in its character, will give a republican candidate for the presidency such unqualified praise as that, there is something uncommonly strong in the candidate, and when the same democratic paper will give its own party such a chilling rebuke for lying, the party is certainly getting down very low in its moral standing. It shows that the "demons of politics" still abide with the democratic party."

GOING OVER TO HARRISON.

There seems to be sort of a Harrison avalanche down east. The Philadelphia Press notes a few of the changes that have taken place since the republican convention was held. A partial list of democratic conversions is given and in it will be found some very prominent democratic workers. The list will worth studying:

George B. Warren, democratic ex-mayor of Troy, N. Y.; James O'Neil, a leading merchant and John D. Spicer, ex-controller and a life-long democrat also of Troy, will vote for Harrison because they are opposed to free trade.

George W. Smith, for years the democratic leader in Herkimer county, N. Y. and twice a democratic candidate for congress, has announced his purpose to vote for Harrison.

Ex-Mayor Forwood, the well-known democratic leader of Delaware county, New York, has written a letter declaring for Harrison and Morton.

John Lynch, a life-long democrat of Allegheny county, has changed on the tariff question, and will support Harrison because he cannot support free trade.

John Slingsby, president of the Montgomery National bank of Norristown, who has always been a democrat and once the congressional nominee of his party, says: "I shall vote for Harrison because I am divided over the tariff taken by Cleveland and by the democratic party at its bidding."

Robert D. Layton, a Pittsburg Knight of Labor and life-long democrat, has come over to Harrison because, as he says, the democrats are clam friends of the laboring man and never do anything for him.

Geo. A. L. Pomeroy, of Allegheny, who has supported the democratic ticket since 1880, has come back to vote for the soldier candidate.

Dudley T. Fiach, A. D. Wales and P. P. Rogers, leading democrats of Brown county, N. Y., declare that they will take the stump for the republican candidates this year.

George Q. Richmond, a leading democratic lawyer of Colorado, has written a letter severing his connection with the democratic party on account of Cleveland and free trade, and announcing his support of the republican candidates.

Frank S. Heston, of Erie, a democrat and labor leader, has declared his purpose to support Harrison because he is a life-long protectionist.

explosives. All attempts to produce them in this country, so as to compete with the imported article, have failed. They are made exclusively in China and Japan, and the importation last week was 14,415 boxes, valued at \$84,255. There is nothing for which the people of this country pay so dearly as firecrackers. They are an insupportable evil. The annual loss of property caused by firecrackers runs from \$500,000 to several millions of dollars, to say nothing of the great loss of life. The "heavenly Chinese" is costing this country more money than he is worth.

Mr. J. D. King, who has been post-office inspector for several years, has been denounced, so the reports say. This removal shows how vigorous is the progress of reform under this administration. Mr. King was one of the best inspectors in the country. He had been engaged in catching thieves in the post-office department down in the southwest and in the west, and they happened to be democrats. The administration could stand this. It cost too much to get democrats in office and then to have them exposed by a republican inspector on account of their dishonesty was too much, and so Mr. King was ordered to quit.

Says a southern democratic paper: "In the south, particularly, the tariff presents a question of vital importance, and the south needs the aid of protection more than any other section of the country. The success of the plan of the free traders and tariff reformers would result in putting a stop to the industrial and agricultural progress the south is making; would bring ruin to its mines and manufacturing and spread poverty and desolation over all the south." This is the reason why the Mills bill was framed to suit the south. It protects southern products, but knocks the "stufing" out of northern products.

During the recent session of the English labor convention, it was asserted, without contradiction, that England has 700,000 workmen out of employment, and numerous mills and workshops closed or working on short time. It was further asserted that relief from this unfortunate condition could be secured in but one of two ways: First, assisted emigration; second, reduction of the United States tariff so as to secure free admission of British manufactures—a privilege now refused by England's own colonies. The United States has all it can do to support its own factories, workshops, and working people without supporting those of Europe.

President Cleveland declined the invitation to attend the reunion at Gettysburg, because of his "conflicting duties in Washington and the circumstances surrounding the subject." That is honest—the last excuse. He could find time on that very day to attend a banquet at Baltimore, but no time to mingle his sympathies with the soldiers and veterans on the field at Gettysburg. With the cause at Gettysburg Mr. Cleveland never had any sympathy.

The campaign war starts out with unusual activity this year. Gov. Hill, of New York, at a Cleveland and Thurman ratification meeting, proclaims that the republican party is the party of free whiskey. If the republican party is the party of free whiskey why is it that 90 percent of all the saloon keepers are democrats? And why is it that all the great brewing and distilling companies are working against the republican party?

The St. Paul Pioneer calls the Menapian canal scheme "the most gigantic and unequalled piece of jobbery" ever contained in a river and harbor bill, and describes it as an "attempt to convert the national government to the construction of a stupendous system of new canals for Chicago." Guess the Pioneer Press is about right.

Says the State Journal: "How many pounds of fine wool is a coat? Four pounds. How much is the tariff on the wool? Ten cents a pound or forty cents in all. What is the cost worth? Twenty-five dollars. How much has its cost increased by the wool tariff? Thus you can see the 'robbery of a tariff,' solve the people."

Our townsman, Mr. John Wines, has expressed an opinion that Wines was a doubtful state, and always has been a "close state." If Mr. Wines wants to know how far he is from stating a fact let him accept the democratic nomination for governor and he will be bound under a republican majority that will make him sick of democratic politics.

B. G. Durant, the prohibition candidate for governor of this state, says: "Yes, we do want to see the republican party go to pieces, just as the old whig party did." That is very true. The third party leaders are after the republican party and not after the saloons.

Mr. Thurman says he knows nothing of General Harrison. Probably not. But he will know something of him before the campaign is over, and he will know how it feels to be beaten a long way out of sight by such a royal good soldier as General Harrison.

There is a split in congress on the sugar tariff. There should not be any split on sugar, neither any tariff.

The Verdict Unanimous
W. D. Smit, Druggist, Niagara, Ind. testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 10 years' standing. Abraham Hare, druggist, Belleville, Ohio, writes: 'I have been selling Electric Bitters for over 20 years. I have never known a case of rheumatism, or of other lame added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at Frank Sherer & Co.'

A SWEET SUBJECT.

Howover, Causes Bitterness Between Republican Leaders.

THE SUGAR DEBATE IN THE HOUSE.

Judge Kelley Takes Congressman Cannon to Task Severely on Account of His Proposal to Place Sugar on the Free List.

WASHINGTON, July 8.—In the tariff debate in the House Friday Mr. Cannon (Ill.) offered an amendment placing sugar on the free list and proposing to pay a bounty for its production.

WASHINGTON, July 9.—The first business done in the House Saturday was the passage of a bill providing for the purchase of the site of Fort Omaha, Neb., and appropriating \$50,000 for the purchase of a new site and construction of buildings thereon. Then Judge Kelley (Pa.) proceeded to castigate Mr. Cannon (Ill.) on account of the sugar schedule offered by that gentleman Saturday as an amendment to the Mills bill. Mr. Kelley said that as a Republican he had been surprised to hear Mr. Cannon make an assault upon the republican platform. There was no instance in the history of the country where the duties had been paid to an industry. If the duties on sugar were wrong, let them be righted. The republican party had declared, not for the establishment of the imperial system of bounties, but for the maintenance of the American protective system. Mr. Cannon had said that protection did not develop sugar in Louisiana. From an annual production of 10,000,000 pounds in 1884-85, that produced 30,000,000 pounds in 1887-88. Continuing, he said that he had little thought that he should hear Republican echoes of the anti-American doctrines enunciated on the other side of the House. Why should Republican voices be raised in slander of their party's platform, and to say that Americans were incompetent to produce sugar, when the time when sugar was raised in Louisiana was in 1882-83. Continuing, he said that he had little thought that he should hear Republican echoes of the anti-American doctrines enunciated on the other side of the House. Why should Republican voices be raised in slander of their party's platform, and to say that Americans were incompetent to produce sugar, when the time when sugar was raised in Louisiana was in 1882-83. Continuing, he said that he had little thought that he should hear Republican echoes of the anti-American doctrines enunciated on the other side of the House. Why should Republican voices be raised in slander of their party's platform, and to say that Americans were incompetent to produce sugar, when the time when sugar was raised in Louisiana was in 1882-83. Continuing, he said that he had little thought that he should hear Republican echoes of the anti-American doctrines enunciated on the other side of the House. Why should Republican voices be raised in slander of their party's platform, and to say that Americans were incompetent to produce sugar, when the time when sugar was raised in Louisiana was in 1882-83. Continuing, he said that he had little thought that he should hear Republican echoes of the anti-American doctrines enunciated on the other side of the House. Why should Republican voices be raised in slander of their party's platform, and to say that Americans were incompetent to produce sugar, when the time when sugar was raised in Louisiana was in 1882-83. Continuing, he said that he had little thought that he should hear Republican echoes of the anti-American doctrines enunciated on the other side of the House. Why should Republican voices be raised in slander of their party's platform, and to say that Americans were incompetent to produce sugar, when the time when sugar was raised in Louisiana was in 1882-83. Continuing, he said that he had little thought that he should hear Republican echoes of the anti-American doctrines enunciated on the other side of the House. Why should Republican voices be raised in slander of their party's platform, and to say that Americans were incompetent to produce sugar, when the time when sugar was raised in Louisiana was in 1882-83. Continuing, he said that he had little thought that he should hear Republican echoes of the anti-American doctrines enunciated on the other side of the House. Why should Republican voices be raised in slander of their party's platform, and to say that Americans were incompetent to produce sugar, when the time when sugar was raised in Louisiana was in 1882-83. Continuing, he said that he had little thought that he should hear Republican echoes of the anti-American doctrines enunciated on the other side of the House.
